

Seals and stamped parts

- Turned and milled parts
- Cast and moulded parts
- Water jet cut parts
- Special parts sealing technology
- Semi-finished product range
- Special parts and more

Parts cleaning according to your specifications

We offer you the opportunity to deliver our parts already cleaned and packed airtight. According to your requirements, parts can be washed conventionally or in a cleanroom and assembled according to your wishes.

The cleaning in the cleanroom ...

... takes place according to the requirements of EN ISO 14644 and certified according to DIN 9001:2008.

...is performed on an environmentally-friendly water basis, and complies with all current environmental regulations and laws.

... is tested by particle measurements and documented transparently and comprehensibly for you as a customer.

We customize the type, units, and labeling of the packaging according to your special requirements, and ensure that the parts can not be contaminated, even in transit.

For questions please get in touch with our contact person, Mr. Ehl, who will be happy to assist you.
