## Household goods

### UNI-GRIP Eraser Sponge for grime removal

#### The product

With the UNI-GRIP Eraser Sponge you can effortlessly get rid of tenacious grime and stains which appear on surfaces like bathroom tiles and door handles! No more grimy or limey edges! You can also forget about marks on the walls and burnt fat and stains on wooden tables.

**Dimensions:** approx 10.0 x 6.0 x 3.0 cm  
**Contents:** 5 pieces packed in a PE bag

#### Directions for use

Dampen the UNI-Grip Eraser Sponge with water and then wring it out a little. Rub the sponge softly on the surface to get rid of grime and stains.

You don't need detergents or much muscle to use it!

The Eraser Sponge is perfect for unpolished and hard surfaces such as hotplates, cookware, cooking pots, pantries, gas cookers and materials made of plastic and stainless steel. Objects such as plastic doors, floors, garden furniture, keyboards, sports shoes, leather clothing, spokes and rims can also be cleaned.

*Tip: Test the sponge first on an inconspicuous surface to make sure it doesn't chafe.*

#### Attention

Please don't use on varnished, waxed, polished, lubricated, painted, glossy or dark surfaces. We have no liability for excessive or unusual use. The sponge is subject to normal use. Once it's used up, throw it away and swap it for another one.

**Keep out of reach of children!**
